LODELL LEAVES GAME IN HUFF; UMPIRE IN AIR

Close Decision at Home Plate Responsible—Rest of Buckaroos Come Near Quitting.

WALLA WALLA, Wash., Aug. 28.—There was more fun doing at Sportsman park yesterday afternoon than at any time this season, the Bucks, the Bears, the umpire and the fans all going to pieces in one, two, three order. It was a comical exhibition, all the more laughable because some of the players took it too seriously, Manager Lodell even going so far as to throw down his glove and quit the game in the second inning, after a close decision at home plate. Incidentally the Bears won, 9 to 5.

Berger emerged from somewhere under the grandstand and took his place at first base after the manager quit, also acting as a settler for the remainder of the team, all of whom came near quitting the field over a play that was very close.

The Bucks simply cannot stand to feel anything slipping. They started off in great shape with a great pitcher in the box for them the old reliable "Paddy" Welsh. Welsh easily struck out the first two men up and then Augustus and Naughton contributed two errors, which with Sheely's hit netted two runs.

Pendleton was peeved but came back game in the second, tying up the score on two earned runs. Osborne opening with a hit. Lodell ran for him because of a sore foot and stole second. Peterson struck out and Augustus hit, scoring Lodell. Welsh and Naughton followed with singles and Augustus scored.

From here the game should have progressed in the usual way, but the Bucks chose to make another scene and finally the umpire became so demoralized from the repeated kicks that he, too, went up in the air, made several bad decisions, changed his decision twice and otherwise added to the panic.

The only excuse, a good one, is that there is such keen rivalry between the Bucks and Bears and the tension is so great that any little thing will start something. It made the game an exciting one because none knew what was coming next, either in the way of baseball or umpire teasing. A little less of such stuff, however would not harm the game a bit, according to some fans.

The Bears earned a run in their half of the second, Johnson hitting. Brown sacrificing him two bases and Welcher delivering a grounder that brought in the run.

In the fourth Peterson lead off with a walk and Augustus sacrificed him to second. Welch hit and Naughton,

doubled and Berger hit into a pretty double play. Lundstrum touching Naughton at third and throwing to Brown, who run Welsh down.

Again the score was tied and again both teams had a chance to settle down with honors even and deliver a little baseball, but they kept up their rag chewing, probably with some excuse, until the arguments and complaints grew monotonous and the game began to be a joke.

The balloon went up for fair in the fifth when the Bears annexed five runs on five hits and two errors. Augustus offending both times. Davis hit a homer in this rally while Harmon, Martini and Sheely all got doubles and Johnson a single.

The Bucks got another in the seventh on hits in succession by Berger, Varian and Dean after two were out. Their last score came in the ninth when Welsh lifted a home run over the center field fence, the second time in the history of the park.

The Bears' last run was in the seventh on Johnson's third single and hits by Brown and Welcher.

SWAT IN 12TH WINS FOR BOISE

BOIST, Aug. 28.—Melter, sent in as a pinch hitter with the score 3 to 2 in favor of the Braves in the tenth inning yesterday advanced the runner for the tying score, and when he came up again in the twelfth the big fellow sent a ball to deep center that counted the winning run. Gordon protested the game, claiming Melter's bat was flat.

Both Wood and Peterson pitched great ball, but the credit for the game goes to Bonner, who went in the box in the eleventh inning with the score tied.

Nadeau and Ford counted two of the Braves' runs on the squeeze play in the first and third. The third run was the result of Harrod's single, a sacrifice and Altematt's error.

A pass to Wood, Reams' single and Friene's double tied the score in the sixth. Singles by Winkler and Friene's double tied the score in the sixth. Singles by Winkler and Reams and Melter's sacrifice tied it again in the eleventh. Gard's double and hits by Winkler and Melter produced the final tally in the twelfth.

The score: 3 10 0
 Boise 4 10 3
 Peterson and Taylor; Wood, Bonner and Gard. (12 innings.)

FAN FODDER

With Washburn hired to complete the season as an umpire, it looks as if the Western Tri-state league is to have another Golden ending.

Pendleton fans will generally uphold the umpire in chasing Haworth for throwing his bat into the grandstand. No matter what the provocation, such conduct is inexcusable.

With the remembrance of the several series which Umpires Hall and Richardson ran here without any crabbings from the players, it is a pretty good bet that Washburn's work smells badly if it is not absolutely rotten.

The news story written fifty miles from the happening which it purports to be chronicling and which is almost wholly false and malicious and is put in print under a false line is like a coward hiding behind a woman's skirts. The remark is pertinent at this time and will be understood by fans.

Don Rader, ex-Buckaroo recently farmed out to Lincoln by the Chicago White Sox, played at his old position on third against Topeka Sunday. In four times up he got a three bagger, a double and a single and the whole Lincoln team only made seven hits. Also he got three putouts and four assists with no errors.

Welsher, the ex-Union association player who played outfield for Boise last week and was released because he could not hit pitched for the Bears yesterday and he was pretty lucky to win his game.

Welsh's homer over the center field fence was the longest hit of the year. It was a duplicate of Cap Brown's homer in the first game of last year. Davis also got a home run over left field fence with one base at the time.—Walla Walla Union.

Washburn has no earmarks of an umpire, save that he will take no back talk. His decisions yesterday were rank, and the batters got so they took three swings rather than risk his judgment. Balls and strikes were not his only failing. He was somewhat off on his work on bases.—Walla Walla Bulletin.

Turkey Buys Italian Warships.
 ROME, Aug. 28.—Relations between Italy and its former enemy, Turkey, reached an interesting phase today when Turkey made a first payment for the purchase of three discarded Italian battleships which were used against the Ottomans in the recent Turkish-Italian war. They are the "Umberto," the "Scilla" and the "Sardegna." The irony of the purchase lies in the fact that the war vessels reached the worn out stage and became useless to Italy while sinking Turkish vessels or bombarding Turkish forts. Turkey, in a frantic endeavor to rehabilitate its "navy," bought the old warships rather than wait to have new ones built.

THE SENATE ACTS ON COLUMBIA RIVER WORK

WASHINGTON, Aug. 28.—Senator Lane introduced in the senate and secured immediate adoption of a joint resolution calling on the secretary of war to submit a new estimate as to the cost of construction of the north jetty at the mouth of the Columbia river, and also calling for the opinion of army engineers as to the advisability of hastening construction, in order to secure a 40-foot channel at the earliest practicable date.

The resolution also asks for the opinion of army engineers as to the advisability of making a lump appropriation to defray the cost of the north jetty based on revised estimates with the intention of showing that if the total amount is available at one time, work can be pressed without such interruptions as occurred frequently on the south jetty.

Good Reason for His Enthusiasm.

When a man has suffered for several days with colic, diarrhoea or other form of bowel complaint and is then cured sound and well by one or two doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy, as is often the case, it is but natural that he should be enthusiastic in his praise of the remedy, and especially is this the case of a severe attack when life is threatened. Try it when in need of such a remedy. It never fails. Sold by all dealers.—Adv.

TELEGRAPHIC BRIEFS

ST. PETERSBURG, Aug. 28.—A new type of aeroplane which is invisible even in broad daylight 1000 feet from the ground, has been purchased by the Russian government from the inventor, a mechanic of Gaischnaer. The planes are made of transparent material resembling the wings of an insect.

PARIS, Aug. 28.—A nest of microbes is what Dr. Vielle of the French institute calls the French chamber of deputies in his report after an investigation of the building's condition, adding that it was a veritable death trap. The report was authorized following the sudden death of a member and was ordered fumigated and provided with entrances for more natural light and sunshine.

TACOMA, Wash., Aug. 28.—Incensed at being accused by her husband of selling the pantry's store of sugar to provide herself with money to see the "movies," Hulda Forsiof has filed suit for divorce. Mrs. Forsiof indignantly denied any surreptitious raid on the supply of household sweets, but husband John remains skeptical.

SEATTLE, Aug. 28.—Bringing 20 nuggets which he declared were taken out close to discovery in the Shushanna gold fields, R. C. C. Cadney, geologist for the Canadian government gave a most optimistic account of the new diggings in Alaska. "There is gold there," he declared. "I know, I carried these nuggets from the district myself."

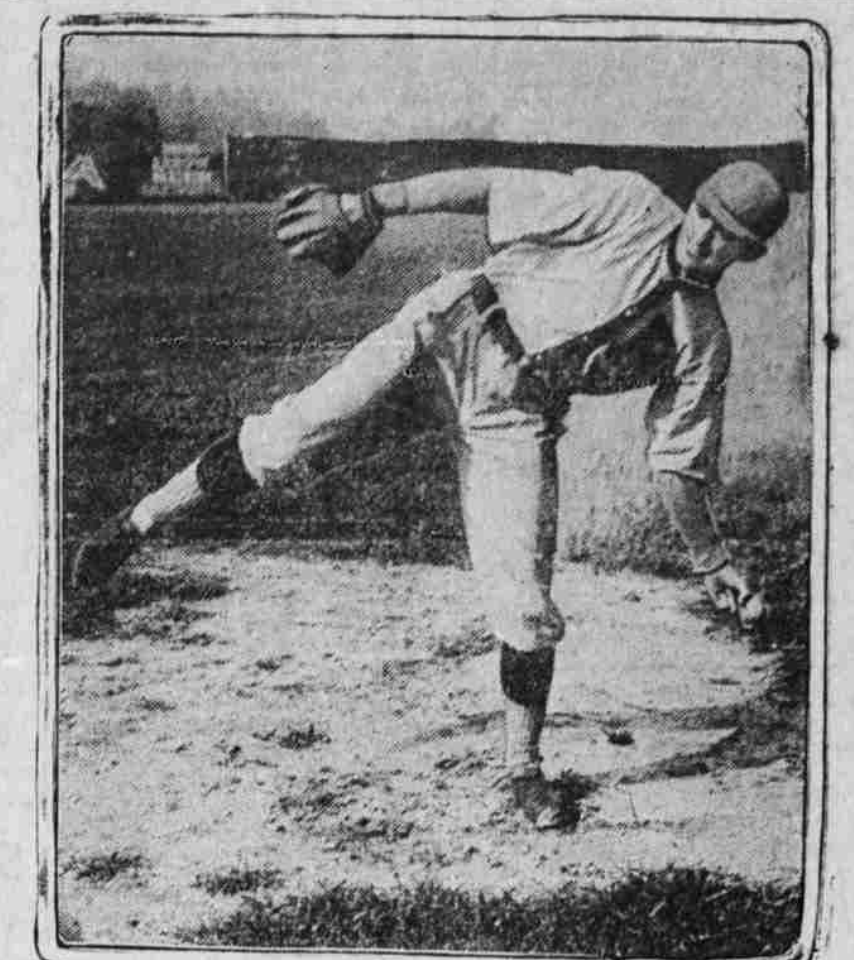

OAKLAND, Cal., Aug. 28.—Harley Sapp and Ray Gordon Clark, bell boys at the Hotel Carlton, Berkeley, are being held here after confessing, according to the police, to robbing guests of the hotel of jewelry valued at \$15,000. The police say the boys have served time in the reform school of the state of Washington.

SAN FRANCISCO, Aug. 28.—F. W. Kellogg of Pasadena, and J. D. Spreckles of San Francisco will start the Evening Call coincident with the passing of the San Francisco Morning Call on September 1, according to announcement here. Kellogg will be president and publisher and Spreckles vice president and treasurer.

SAN FRANCISCO, Aug. 28.—An drew Meale, a clerk, told Superior Judge Dunne that he was tired of having people laugh at this name and asked for permission to change it. In a lengthy petition Meale set forth that at various functions laughter was always created on his introduction by the pronunciation of his cognomen. He wants to be called Ma-selle and the court said O. K.

Almost any man can acquire popularity if he is willing to pay the price.

ANOTHER "WORLD BEATER" FROM MINORS

Harry Hedgepeth, star pitcher of the Petersburg (Virginia League) team, who pitched a double header against Richmond, winning the first game 1 to 0, allowing one hit, and winning the second game 10 to 0, allowing no hits; making the first record for such a performance in the history of organized baseball. Hedgepeth with Ayers of the Richmond team, are to join the Washington Senators next month, where they will have their first crack at big league baseball. Ayers holds the record of having won thirteen games straight for his team, up to the time of his defeat by Hedgepeth.

Never before in the history of the game have so many minor league wonders been unearthed by the major league clubs. Whether they will hold the reputation they have won playing amid new surroundings is the question which every major league owner would give anything to know. If all the recruit stars were successful in holding on to the same ratings as they held before entering the "big show" the club managers would face one of the most serious problems ever confronted by mortal man. Fortunately or unfortunately, this is not the case. Hedgepeth, as also Ayers, Schauer (sold to the New York Giants for \$10,000), Chappelle (\$18,000 less for the stockholders of the Chicago American league team), and many others will get their supreme test in the "big circuit" this fall or spring. Will they stick?

LAW PUTS BAN ON LATE STROLLERS

LA GRANDE, Ore., Aug. 28.—Dance hall patrons, girls especially, can get into jail hereafter by roaming the streets after midnight or rushing up town between dances on public dance nights which at present are Saturday and Tuesday evenings. This is the ukase of Chief of Police McLachlin. On Saturday night it is the custom for girl dancers to wander about the streets, the police say, until far into the night. Chief of Police McLachlin went on a night shift last Saturday and has issued instructions, as a result of what he saw between 12 and 3 o'clock Sunday morning, to arrest all girls found roaming on the streets after hours. To girls under age this applies from 9 o'clock on, unless they are with guardians or are on business errands, but any girl who makes it a point to walk up and down the streets purely on a time-killing errand, are to be arrested under the 12 o'clock law that applies to man or woman who is out after that hour without proper cause.

"Young girls who attend dances must stay at the dances until they are ready to go home or the dance is over, and then go home immediately or they will be arrested," says the chief's order. The night police have strict instructions to enforce the ordinance.

LA GRANDE, Ore., Aug. 28.—After having laid face downward in a pool of water six inches deep for a period of probably 48 hours, the remains of Harry French, aged 86 years, was found by neighbors at Hilgard. The old gentleman, who lived alone on the banks of Five Points creek, had probably been seized with apoplexy while in the act of dipping up a bucket of water from the creek as has been his custom. He has been very feeble of late and had suffered several minor attacks of apoplexy. It is not believed that he was drowned as was first thought, because the remains showed but little indication of drowning.

King Manuel Practices Conservation. PISA, Italy, Aug. 28.—King Victor Emmanuel, who is spending the hot weather on his farm at San Rossore near here, today for the first time visited his new forest of 10,000 Canadian poplars which recently were

planted. His majesty has taken up the reforestation and conservation idea in earnest and will make an effort to interest all the larger landholders of Italy in reforesting their property with Canadian and American trees.
